I agree to adhere to the *Wildwood Boat Washing Verification Procedures* as presented on the reverse side of this form, which I have read prior to completing this Registration Form.

I understand that, in signing this registration form, I am creating a contract with the WPOA in order to protect the environmental integrity of its ponds.

I understand that, if I do not abide by the *Wildwood Boat Washing Verification Procedures* and WPOA rules, or if, for any reason, the WPOA feels that my boat or actions while on the pond may cause harm, I give the WPOA the right to prevent my boat from being launched from or stored on the beaches of, either of the WPOA ponds. The WPOA may, at its sole discretion, remove my boat and trailer from the pond.

WILDWOOD BOAT WASHING VERIFICATION PROCEDURES

To be completed every time a boat/trailer is put back into WPOA ponds.

THIS IS THE REVERSE SIDE OF THE REGISTRATION FORM, EXPLAINING THE PROCEDURES SO THERE IS NO DOUBT THAT BOAT OWNERS KNOW WHAT IT IS.

REQUIRED

- Only registered boats owned by members or by registered guests with stickers will be allowed to enter Wildwood ponds.
- When entering Wildwood with a boat or after removing a boat from Otter Pond or Cranberry Pond for any reason.
- Boat washing will be done by a designated WPOA representative. Please make an appointment for the boat/trailer to be washed during regular office hours. In the event that you arrive during non-business hours, you may make arrangements to use the WPOA fishing boat until your boat can be washed.

INSTRUCTIONS

- Empty the boat, as all surfaces will be cleaned. Bring all items that you will use on the boat, including life preservers and fishing gear; these will be washed as well.
- Bring the boat/trailer to the designated boat-washing station behind the club house at your appointment time, and let the Office know you are there.
- Once your designated WPOA employee arrives, your boat will be washed. The process takes only a few minutes.
- Please note that live bait in water from a source outside wildwood has been identified as a source for transporting invasive species. Any live bait and the water in which they reside must be disposed of away from the WPOA ponds. Please remove what remains from the ponds and dispose of the remainder into a garbage dumpster. Do not under any circumstances dump the remaining bait and/or water into the pond.
- After the washing, complete and sign the certification form and make sure it is co-signed by the staff member who has washed your boat.

REMINDERS

- Boats with trailers may be launched **ONLY** at the main beach launching area. The key will not be given out, but will be used by a WPOA representative to open the gate for you. You must provide a copy of the signed certification form and have the appropriate stickers properly affixed to the boat/trailer prior to entry.
- In the event that the boat is removed from either of our ponds for any reason, even if it is to transport the boat from Otter Pond to Cranberry Pond, the boat must undergo washing and certification once again as noted above (dangerous weeds have been identified in Otter Pond and we do not want them transmitted to Cranberry Pond).

By signing this form, you verify that you have received, read, understood and agreed to follow these procedures.
